

Singularity™ Identity Posture Management

Assess, Detect, and Remediate Threats to Your Active Directory

AD and Azure AD are common targets of identity-based cyber attacks. Their compromise can give attackers the foothold to expand access, establish persistence, escalate privileges, identify more targets, and move laterally.

Singularity Identity Posture Management, a component of the Singularity XDR platform, is an identity configuration assessment solution that identifies misconfigurations, vulnerabilities, and active threats targeting Active Directory (AD) and Azure AD. By delivering prescriptive, actionable insight into exposures in your identity attack surface, Singularity Identity Posture Management helps you reduce the risk of compromise and brings your assets in line with security best practices.

Continuously Analyze Identity Exposure

Skip the expensive and manual audits. Automatically pinpoint critical domain, device, and user-level exposures in Active Directory and Azure AD.

Reduce the AD Attack Surface

Analyze configuration changes to conform with best practices and eliminate excessive privileges using automated AD exposure remediation with rollback capability.

Detect Active AD Attack Indicators

Proactively monitor AD and Azure AD for activities that indicate potentially active attacks continuously.

Singularity Identity Posture Management is simple to deploy and provides fast, actionable insights into hardening Active Directory and Azure AD implementations, thereby reducing your identity attack surface.

More information at s1.ai/ranger-ad

84%

of organizations have experienced an identity-related breach. Singularity Identity Posture Management provides the actionable information to reduce that exposure.

Key Features and Benefits

- + Proactively address identity-based risk
- + Compare AD & Azure AD configurations to best practices
- + Understand AD & Azure AD security misconfigurations
- + Reveal domain, device, and user-level exposures
- + Stay informed of suspicious AD change events
- + Reduce the MTTR to identity-based attacks
- + Gain visibility and flexibility from continuous & on-demand monitoring for active AD attacks
- + Granular options to remediate exposures and Rollback

Reduce Your AD Attack Surface & Build Resilience

By analyzing your AD configuration for conformance to best practices, and guiding you towards quick remediation for any excessive privilege across the organization, Singularity Identity Posture Management helps tangibly reduce your attack surface. Proactively closing or addressing the gaps identified by Singularity Identity Posture Management can ultimately improve your team’s long-term security posture.

Hundreds of Real-Time Checks

✔ Domain Level	✔ Device Level	✔ User Level
+ Weak policies	+ Rogue domain controllers	+ Credentials analysis
+ Credential harvesting	+ OS issues	+ Privileged accounts
+ Kerberos vulnerabilities	+ AD vulnerabilities	+ Stale accounts
		+ Shared credentials

Fast Time-to-Value

- + Flexible deployment: on-prem and SaaS
- + Flexible coverage: on-prem AD, Azure AD, and multi-cloud
- + Low friction implementation with fast, actionable results
- + Achieve full coverage for on-premises Active Directory, Azure AD, and multi-cloud environments
- + Maximize security with minimal resources: requires just one end-point and no privileged credentials

Innovative. Trusted. Recognized.

A Leader in the 2023 Magic Quadrant for Endpoint Protection Platforms

Record Breaking ATT&CK Evaluation
+ 100% Protection. 100% Detection
+ Outstanding Analytic Coverage, 4 Years Running
+ 100% Real-time with Zero Delays

96% of Gartner Peer Insights™ EDR Reviewers Recommend SentinelOne Singularity

About SentinelOne

SentinelOne is the world’s most advanced cybersecurity platform. The SentinelOne Singularity™ Platform detects, prevents, and responds to cyber-attacks at machine speed, empowering organizations to secure endpoints, cloud workloads, containers, identities, and mobile and network-connected devices with intelligence, speed, accuracy, and simplicity. Over 11,500 customers—including Fortune 10, Fortune 500, and Global 2000 companies, as well as prominent governments—all trust SentinelOne to Secure Tomorrow.
